

ESCAPED CONVICT

Captured By Marshal Herman Cox at Gracey.

Bud Bennett, a Winchester negro who had escaped from the penitentiary at Eddyville the day before, was arrested last Friday night just after dark at Gracey by Herman Cox, City Marshal. Cox received notice in the morning of the escape and had been on the look out for him all day. The negro came through Trigg county and stopped at Gracey about night, getting a room from Pink Dabney in which to sleep during the night. After getting his fire made, Cox went into the room and arrested him. He was taken back to Eddyville next day, and Marshal Cox given the reward of \$100 for the arrest. The negro was serving a term of from five to twenty-five years for seriously injuring the night watchman at a lumber plant at Winchester while trying to rob it and for shooting and wounding a policeman who was afterward pursuing him.—Record.

Why Chauffeurs Never Smile.

As omnibus and hansom drivers, London cabbies were once a round, rubicund, jolly, smiling lot, but as chauffeurs of motor omnibuses and taxicabs, they are gloomy, grim, silent, taciturn, with stern set faces. "At least 80 per cent. of these long-faced persons were once drivers of horses," comments the London Standard. "The motor car with its increased speed is to blame for it all. "Smiling is incomparable with speed. It's inhuman to smile at much above ten miles an hour. Rapid motion sets the facial muscles rigid; it gives a thrill to the driver which deadens the risible faculties. "A baby will smile in its perambulator, smile constantly as the nurse wheels it about two miles an hour. The same baby riding in a motor car loses the faculty for smiling as soon as it is aware of the rapid motion. The speed-thrill kills the smile in all."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

State Politics.

As to the candidacy of Hon. H. V. McChesney, the latest entry in the race for the Democratic gubernatorial nomination, on a State-wide platform, it is claimed by well-posted Democrats who visited Lexington the past week, that the announcement of Mr. McChesney has fallen flat, and that the furor which his friends and supporters expected would follow his entrance in the race has not materialized. A well-known Democrat from Southern Kentucky, who was in Lexington this week, said that he had failed to find in his section anybody for Mr. McChesney. Democrat leaders from other sections bring reports that there is no hurrah for McChesney in their bailiwicks. On top of this dearth of enthusiasm along comes the W. C. T. U. and through its leader, Mrs. Beauchamp, announces its adherents see no reason to change their allegiance from John W. Newman to Mr. McChesney on account of his State-wide pronouncement, even going so far as to cast suspicion upon the sincerity of Mr. McChesney's profession on this point by reason of that clause in his announcement which favors temporizing with the operation of a State-wide law in the event that it were enacted. With the "white ribboners" taking this attitude it is evident that they are not going to "warm" to McChesney, and his hope to have the temperance vote behind him, shrinks to an alarmingly meager prospect. The indications are that Mr. McChesney will have to depend very largely upon the Beckham-Haly-Vansant organization to put him over, or he will be left ingloriously at the post.—R. Lee Davis in Lexington Leader.

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

TWO BLAZES

But Both Were Extinguished in Short Order.

There was a small blaze in the dry cleaning room of the Model Laundry Thursday afternoon and the fire department was called out, but steam was turned on the blaze and the fire was extinguished without the use of water. Three suits of clothes were burned, but the damage otherwise was small.

Yesterday morning about 9 o'clock the cornice on the house of Bob Mason, col., on Mason alley, was discovered on fire and the department was called to the building, but the flames were extinguished with a few buckets of water. The damage was small.

CORN THIEF IN THIS VICINITY

Watch For Him---He May Be In Your Neighborhood!

During the last few years farmers in this county have lost thousands of dollars because of a certain corn thief that has worked so insidiously that his detection was almost impossible. Lately, however a great many farmers have found him out, and have placed a guard around their crop this year. We are making this announcement to protect these who are not aware of his existence.

The Worst Thief In The Country Is

a planter that does not drop accurately. Figuring corn at 50 cents per bushel, a planter that misses 6 grains in every 100 hills steals from the farmer \$96.00 on every 100 acres of corn; a miss of 15 grains in 100 hills loses the farmer \$240.00; a miss of 30 grains, \$480.00; a miss of 45 grains, \$720.00. By these figures it is easy to see that the "Corn Thief" loses for the farmers each year hundreds of times the cost of a new planter—one that drops accurately and makes the field produce an accurate stand.

Guard Against This Thief In Your Field

The surest way is to purchase the one planter that has been proven perfect in its drop of seed. THE JOHN DEERE OBLIQUE SECTION.

The JOHN DEERE Oblique Section Planter

has the natural drop. Kernels do not have to be tipped on edge before they enter the cells. Seed cells and hopper bottom are oblique or sloping. The weight of the corn in the hopper helps to fill the cells. They are more accurate than the edge selection planters.

Come in and let us show you how you can increase your corn yield this year. It means dollars and cents to you to investigate this proposition.
